

## Trips and Visits

Mayflower High School is proud to offer a rich and varied programme of trips, field studies, and international visits designed to enhance our students' learning experiences, broaden horizons, and build confidence. Across all year groups, students have the opportunity to participate in educational, cultural, and recreational activities—both within the UK and abroad—that create lasting memories beyond the classroom.

### Important Information for Parents

- **Budgeting:** The overview below provides typical trips and estimated costs to help families plan ahead. Please note that prices are subject to change and trips may be added or removed based on staffing, transport, or external provider pricing.
- **Expectations:** Students are not expected to attend every trip available in their year group. Some visits are specific to certain courses, and many are subject to availability.
- **Accessibility:** We are committed to making these opportunities as inclusive as possible. Subsidised or fully supported places may be available for students in receipt of Free School Meals.
- **No-Cost Enrichment:** In addition to off-site visits, we host numerous activities in school—such as science presentations, visiting drama groups, guest speakers, sports leader events, —which incur no cost to parents.

Below is a selection of the trips for the 2025-26 academic year, and proposed trips for 2026-2027 academic year. This schedule is shared in advance to provide early notice for your family's planning and budgeting.
